

MAYORS' MEGAWATT CHALLENGE

leadership by example

Annual Forum 2014

Exploring the Performance of Municipal Green Buildings

November 12-13, 2014 8:30 am – 4 pm

Black Creek Pioneer Village

Moncton City Hall, 2013 leader of the Town Hall Challenge 20 by 15

The Forum is the annual signature event of the Mayors' Megawatt Challenge, bringing together municipalities, government, utility companies and industry experts to drive forward the energy and environmental performance of municipal facilities. Forum 2014 focuses on top-performing town/city halls and community centres, as well as case studies and actual performance of LEED® facilities, and features Mark Hutchinson, Director of Green Building Programs at the Canada Green Building Council as our keynote speaker.

Keynote address on municipal leadership in sustainability,

Michael Harcourt, Former BC Premier and Chair of QUEST

The Mayors' Megawatt Challenge Program

The Mayors' Megawatt Challenge brings municipalities from across Canada together to lower their own energy use, emissions and operating costs, while demonstrating leadership in taking action towards more sustainable communities. Members manage data, assess their energy and environmental performance, set targets and track savings, using the largest online municipal database in Canada. They share knowledge and best practices through webinars and networking to help plan, implement and verify improvements. This is a program of The Living City delivered across Canada by Toronto and Region Conservation.
